

RECLAIM REPURPOSE RECYCLE

LUMBER CATALOGUE
FALL 2023

Innovation | Creativity | Environmental Stewardship

Innovative thinking and creativity make up the base fabric of Timberwood Innovation's company culture. Our team is driven to constantly improve our processes and product designs for our customer base. These qualities have grown the company's scope of product offerings far beyond the humble beginnings of the initial ABMT Wood Solutions Ltd deconstruction phase of Canadian Prairies grain elevator #1 at Milden, Saskatchewan, Canada. Timberwood Innovations is a registered sales and marketing tradename wholly owned by ABMT Wood Solutions Ltd.

The management team at Timberwood Innovations has a goal to provide repurposed lumber for building projects across North America. We will provide designers, architects, engineers, developers, and contractors with solutions for environmental construction considerations and requirements of various funding streams. This is aligned with Canada's 2030 Carbon Reduction Plan to achieve an emissions reduction target of 40 percent below 2005 levels by 2030 and net-zero carbon emissions by 2050.

At Timberwood Innovations we have a vision and a plan to reclaim, repurpose and create new from old. Creating an opportunity to respond to the growing global demand for Low Carbon building products while serving the needs of the Net Zero Carbon and Net Zero Energy building communities.

We are poised to become one of the largest producers of repurposed and reclaimed eco-friendly wood products in North America. We are confident and well equipped to offer the building products and building design expertise support to be able to successfully meet that demand. Our flagship product: Nail Laminated Mass Timber (NLMT) building panels are a low carbon footprint structural panel system which is a viable construction system option. We offer the opportunity to work with truly Eco-Friendly and responsibly sourced wood products.

Expect to see new product lines presented in our 2024 catalog.

We look forward to rebuilding the future with you!

The Timberwood Team

FALL 2023

Repurposed Lumber

CATALOGUE

Our ECO lumber products are a low carbon building products available to the world market. We offer building products that help meet and exceed the goals of a Net Zero Carbon footprint creating carbon credits for building L.C.A. (Life Cycle Analysis). Reclaim, repurpose recycle our history for our future. Thank you for your support!

1. Dimensional Lumber
 - Rough Sawn
 - Planed - S4S
 - Sanded - S4S
 - Spruce / Fir / Cedar
2. Sculpted Wood
 - Solid Plank - Sculpted Raised Grain
 - Plywood - Sculpted Raised Grain
3. Speciality Wood Products
 - # 1 Bevel Edge Cedar Siding - 5 inch
 - # 1 Grade Cedar Shingles
 - Aluminium Tongue and Groove Siding Sheets (20" X 20")
4. Shiplap
5. Nail Laminated Mass Timber Panel (NLMTTP)
